

## Help at home for Level 5

In order to pass Level 5 you need to know all of these number bonds up to 10:

$1 + 1 = 2$

$1 + 6 = 7$

$1 + 2 = 3$

$2 + 5 = 7$

$3 + 4 = 7$

$1 + 3 = 4$

$1 + 7 = 8$

$2 + 2 = 4$

$2 + 6 = 8$

$3 + 5 = 8$

$1 + 4 = 5$

$4 + 4 = 8$

$2 + 3 = 5$

$1 + 8 = 9$

$1 + 5 = 6$

$2 + 7 = 9$

$2 + 4 = 6$

$3 + 6 = 9$

$3 + 3 = 6$

$4 + 5 = 9$

Concentrate on the bold ones as these are facts that you have not yet learnt. The other facts are doubles or adding 1 more. Remember addition facts can be done in any order;

$4 + 5 \text{ is the same as } 5 + 4$
