

Help at home for Level 9

In order to pass Level 9 you need to know the 10 times table facts:

$$0 \times 10 = 0$$

$$1 \times 10 = 10$$

$$2 \times 10 = 20$$

$$3 \times 10 = 30$$

$$4 \times 10 = 40$$

$$5 \times 10 = 50$$

$$6 \times 10 = 60$$

$$7 \times 10 = 70$$

$$8 \times 10 = 80$$

$$9 \times 10 = 90$$

$$10 \times 10 = 100$$

Try asking your child questions such as:

1 sweet cost 10p. How much would 4 sweets cost?

Remember that the calculation can be written either way round

e.g. $10 \times 6 = 60$ and $6 \times 10 = 60$
