

## Help at home for Level 2

In order to pass Level 2 you need to know all of these addition facts:

$$0 + 10 = 10$$

$$1 + 9 = 10$$

$$2 + 8 = 10$$

$$3 + 7 = 10$$

$$4 + 6 = 10$$

$$5 + 5 = 10$$

$$6 + 4 = 10$$

$$7 + 3 = 10$$

$$8 + 2 = 10$$

$$9 + 1 = 10$$

$$10 + 0 = 10$$

Remember addition number facts can be written with either number at the beginning and have the same answer, so you only need to actually memorise and learn 6 of the number facts.

**9 + 1 = 10** can also be written as **1 + 9 = 10**

The test will consist of number sentences with missing numbers

e.g.  $3 + \underline{\quad} = 10$
