

Help at home for Level 13

In order to pass Level 13 you need to be able to add 10 to any single digit number:

$$1+10=11$$

$$2+10=12$$

$$3+10=13$$

$$4+10=14$$

$$5+10=15$$

$$6+10=16$$

$$7+10=17$$

$$8+10=18$$

$$9+10=19$$

Remember all addition facts can be written with either number at the beginning and have the same answer.

10 + 7 = 17 can also be written as **7 + 10 = 17**

Remember when adding 10 to any number the units column stays the same (doesn't change).
