Remote Learning Pack

For use in the event of school closure or isolation

# Home Learning

We hope this slide is helpful but please get in touch through school admin if you have any questions. 😊

2

Dear Parents,

Please find attached a weekly home learning pack for your child if they are isolating at home. In this pack you will find daily activities for English, Reading, Maths and Spelling. Each afternoon there is a lesson from the wider curriculum. Some of these lessons have a list of possible activities for your children to complete. These get gradually more challenging so please support your child to select something that is appropriate for their stage of learning.

If you have any questions or concerns, you are able to post these on Microsoft Teams or email through school admin, but please be aware we are teaching in school and bare with us if we are not able to respond straight away.

Miss Rolls, Mrs Sherfield, Ms Sherfield, Mr Hatton and Mr Sayer.

# P.E

Select an activity from either of the lists below for today's P.E lesson. Remember to ask your adult before beginning an indoor P.E activity.

Indoor P.E		Outdoor P.E	
1	<b>Twister</b> – Play a game of Twister! Twister is fun, encourages flexibility and balance, and is perfect for a rainy day or if you don't have an outdoor space available right now.	1	<b>Hopscotch</b> - Hopscotch is excellent for helping you improve balance and coordination because of all of the rapid changes in movement required. Get out the chalk and set up hopscotch on your patio or driveway and hop along with each other.
2	<b>Dance + freeze</b> - Adding a "freeze" element to a living room dance party makes it more fun whilst also encouraging you to develop your balancing skills.	2	<b>Obstacle course</b> - Enlist your child's help in setting up an obstacle course in the backyard. Get creative with what you have available to make it fun and challenging. Use garden stones or an old 2x4 to create a balance beam, mark a pathway for them to run or ride their bike on, set up a big bucket for them to throw a ball in.
3	<b>Yoga</b> - Practicing yoga together is a great way to challenge your balance and coordination while also getting some much needed zen time with your family.	3	<b>Foursquare</b> - Sometimes the simple, time-tested games are the best! Draw numbered squares on your driveway/on a patio and challenge each other to bounce the ball to a family member standing in whatever number square you call out. (You <i>do</i> need four people for a traditional foursquare game, but if you have fewer than four people in your household, you can create a simple variation by drawing a triangle or a rectangle with fewer spots.)
4	<b>Beanbag toss</b> - Set up two baskets, one full of beanbags or soft balls. You can practise throwing a beanbag from one basket to another to work on coordination. Move the baskets further apart as to really challenge yourself.	4	<b>Follow the leader</b> - Line up single file and let each family member take turns being the "leader." The leader decides how the group will move around the backyard. Think crawling around the perimeter, walking backwards (carefully), hopping on one foot, going down the slide if you have one.
5	<b>Jump rope</b> - Jump rope is the perfect indoor PE activity because it uses up so much energy, requires very little space and is excellent practice for coordination. NOTE: Make sure you find a safe area to do this.	5	<b>Red light green light</b> - Stand along the fence in the backyard. Ask your adult to stand across the garden. When the adults call "Green Light!" you can advance towards them and they call "Red Light!" you stop. Your adult will change up the type of movement you use, from jumping to tiptoeing, and make sure to switch roles so you get a chance to lead too.

Thursday

LO: Multi-step addition and subtraction problems

Watch the video: <https://vimeo.com/456840256>

Complete the tasks below.

Multi-step addition and subtraction problems

1 Eva is reading a book before bedtime.  
On Monday she reads 38 pages.  
On Tuesday she reads 6 pages more than she did on Monday.

a) How many pages does she read on Tuesday?

b) How many pages does she read altogether on Monday and Tuesday?

c) There are 123 pages in the book altogether.  
How many pages does Eva have left to read?

2 Here are two number cards.

800

?

The sum of the two cards is 2,900  
What is the difference between the two cards?

3 Mo has £1,000 to spend. He buys a TV and a games console.

Does Mo have enough money left to buy the phone? \_\_\_\_\_  
Show your workings.

4 Two families each have £1,800  
The table shows how much they need to spend.

	The Websters	The Changs
Housing	£465	£550
Food	£420	£380
Bills	£120	£135

Which family has the most money left?  
\_\_\_\_\_

How much more money do they have?

# Art

Week beginning Monday 21<sup>st</sup> September

## Picasso

Tell someone at home who he was and what you can remember about him.

## Picasso Portraits

Can you see two different perspectives?

What colours did Picasso like to use?

# Draw your own Picasso Portrait

- You are going to attempt a self-portrait in the style of Picasso, using a mirror. Half of the face you draw will be face on and half will be the profile of the person. Only draw the head to concentrate on the facial features, not a body. Draw a head shape and draw a faint line down the middle and use a mirror to draw a face on one half then on the other half of the face look at someone in your home, see what an eye/nose/mouth looks like from a side view.
- Use bright colours on different parts of the face like Picasso did not normal skin colour.

Friday

LO: Add and subtract integers

Watch the video: <https://vimeo.com/456840497>

Complete the tasks below.

Add and subtract integers

1 Complete the calculations.

a)

	3	0	5	9	4
+	1	5	4	2	3

c)  $5,236 + 424,850$

b)

	4	2	4	8	5
-			5	2	3

d)  $30,594 - 15,423$

2 Calculate the missing numbers. Show your method.

a)

b)

	?			
	2,354	750	1,500	

c)  $23,500 + \square + 120,578 = 1,201,079$

d)  $\square - 233,233 = 322,322$

3 Match the calculations to the best estimates.

$8,000,500 - 6,100,000$

$1,250,000 + 900,000$

double 600,000

$123,999 + 84,178$

200,000

one million

$2\frac{1}{4}$  million

2 million

Talk about your answers with a partner.

4 Complete the calculations.

a)

	8	1	8	5	
+			0	6	
	9	9	5	8	

c)

	8	4	8	5	
-	3	6			4
		5	5	5	5

b)

	2		5	5	
-	2		0	5	
		9	0	5	

d)
