Curriculum Strands: The Roman Empire and its impact on Britain

Timeline

The first Romans lived in Italy nearly 3000 years ago. They founded the city of Rome in 753 BC and, over the centuries, **conquered** many lands to create a huge **empire**.

Julius Caesar Invades in 55 BC and 54 BC

The Roman General Julius Caesar made two attempts to **conquer** Britain. He wanted to add the rich land to the **Roman Empire** and punish the **Celts** for helping his enemies. His **legions** weren't able to overcome the **Celts** in 55 BC or 54 BC, but some leaders did pay tributes (a tax) so the Romans would leave. This meant the **Celts** could continue to live as they were.

Emperor Claudius Conquers Britain in AD 43

In AD 43, **Emperor** Claudius launched a third attack on Britain. He sent a powerful and well-organised army of around 40,000 men (that landed in southern England) to **conquer** the **Celtic tribes**. This time, much of Britain (or Britannia as the Romans called it) did become another province of Rome.

Roman Roads and Towns

The Roman army are famous for building long, straight roads. Special engineers planned these roads and they criss-crossed the whole **Roman Empire**. They boosted trade, communication with the **Emperor** and helped the **legions** to keep control of all the different provinces.

The Romans built new towns all over Britain. Each one had a marketplace, town hall, shops, temples and homes; larger towns had an amphitheatre. Bath houses were elaborately designed and were popular places to relax and meet friends.
