Have Your Say, Wokingham Borough. Is the NHS app working for you?

The Government's NHS 10-year plan aims to improve healthcare access through technology and digital tools. By 2028, the NHS App is planned to be 'a full front door to the entire NHS.' But what does that mean for people living in Wokingham Borough who are not confident online or don't have access at all?

Here at Healthwatch, we have launched a survey to understand how the NHS App is working or not working for residents.

Whether you use the NHS app regularly, have only tried it once or have not used it at all, your feedback matters. Your feedback will help highlight local barriers such as digital exclusion, lack of awareness, accessibility issues or simply personal preference for more traditional ways of accessing healthcare services and support.

The survey is now open!

All survey responses are anonymous, and your feedback may be shared with NHS England and local healthcare leaders to help improve digital services whilst trying to make sure that no one is left behind.

Complete the survey and have your say: <https://sholink.to/NHSAppSurvey>

Let's make sure the digital future of healthcare works for everyone across the borough, not just those who are already online.
